The Town of Stonington will hold a vote on June 16th and one of the items is for tax abatement of up to \$2,000 on property tax each year for fire fighters.

Chief is getting the number of calls for Borough emergencies.

April Police Incident Report (Nicholas)

Michael and I attended a demonstration on Flock Cameras. The investigation into the recent reckless driving incidents is ongoing.

Parks, Trees & Rights of Way (Barnes)

I met with Kevin Mucha from Bartlett to discuss the following work which will be completed in the coming weeks:

- Pruning of 2 London Planes on Pearl Street near intersection of Gold Street
- Pruning of 2 Crabapples on Pearl Street near intersection of Gold St.
- Planting of one Kousa Dogwood on Broad Street
- · Planting of one Sweet Gum on Cliff Street

I met with neighbors of the Front Street circle to discuss plans for improving that area now that construction is complete. We are going to start with low maintenance landscaping in the center of the circle (creeping myrtle, etc.), and they would like to use some granite stones (from Wimpfheimer storage area) around the perimeter. The planning for all of this is in progress, and I will be meeting with a local landscaper to discuss options.

Burgesses suggested that some of the benches on Wadawanuck Square be turned to face Wad Square. Sue will need to see if they can be moved.

Public Buildings (Rogers)

Borough Hall

None

Fire House

Nothing to report.

Utilities & Sanitation (Bowdler)

Things have quieted down on the trash front so I will re-commence the rounds on Wednesday nights to identify any trash that has been placed on the curb and not in a closed bin.

We discussed adding more doggy mitts at our last meeting. I have attached the map of current locations. Should we add more and if so, where?

Utilities

I had another conversation with a solar light company. There appears to be an improvement in the solar light technology in that they only require 3 to 4 hours of direct sunlight to charge the batteries. The lights are very intelligent and will reduce power if the battery is dying after several cloudy days. We can also set the light to any program we want that can be controlled from your phone. E.g. on for 4 hours after dusk and on one hour before dawn. They also have a sensor option so that even when the light is off, it will come on if it senses motion. When mounted on a 12 feet high pole, they can shed a wide thin light about 30 feet each side of the post. These are significantly less expensive at \$3,500 than the colonial style we looked at (1 OK) The problem is that they do not look very nice. Let's discuss what you think. The measurement of the light fixture is 19" long, 16" wide and 6.5" high.

I will look at particularly dark spots to suggest a location for a trial.

PUBLIC COMMENT

Resident Jesse Diggs of 8 School St. thanked the Board for the Public Restrooms. Regarding Public Comment – public comment can get buried and not delt with. He wants to see action. He feels that we should restrict the length of trucks that come into the Borough, or at least past Cannon Square. The steepness of the new viaduct bridge might cause more speeding. He has a video to share with the Board suggesting how a speed cushion at the end of the viaduct might affect speed.

Coast Guard talking about removing buoys leading into the Harbor. This is dangerous because not all boats have navigation onboard.

What can CSO's do while in the Borough. They can issue parking tickets.

Annette Binkowski of SBMA reported that they had received a \$12,000 grant and are therefore returning the \$1,500 they had received.

Resident Frank Tong of 2 Church St. said that he was puzzled about Wayland's Wharf timeline. Warden Schefers said that we are currently in Phase One in which the sidewalk, inner barrier and fill in the void found will be completed. Phase Two will happen in Fall of 2025. He had a question about composting. Warden Schefers answered that the town in pursuing grants. It will continue this year until July 1 without a grant. He encouraged residents to contact Jill Senior at Town of Stonington Dept of Waste.

Burgess Bowdler requested source of water for the watering of the new grass at Wayland's Wharf. Frank Tong is happy to give water, but Jerry Donovan who is closer should be contacted.

Resident Chuck Hartman of 13 Wall Street brought up concern of underage people parking at the end of Wall Street and at the Point, drinking or using drugs then speeding through the streets of the Borough. He asked if the Board sees it as a problem. Burgess Nicholas said we are working with police to have more converge and to have more presence after Memorial Day at the viaduct. Burgess Nicholas and Warden Schefers to ask police to have late night presence at the Point, Wayland's Wharf, the Town Dock and Wall Street.

Mr. Hartman was not aware of ambulance coverage infrequency. He asked what the mil rate would be to add a full-time ambulance. Burgess Bowdler asked to see the numbers to do this.

Resident Jean Fiore of Cannon Square suggested that cones be put up at private property.

Resident Al Razzano of Main St. asked that Burgess Nicholas ask the police to put a car at the end of Wall Street at least once a week.

Resident Jim Arnold of 3 Broad St. who gets the personal donations made to the ambulance corps? They do. They are independent, not government funded.

Resident Dave Nolan of 21 High Street, asking for a friend who lives on Main Street, how to get two feet of yellow paint on curb. Warden asked that he send a formal email to him.

UNFINISHED BUSINESS

Ginkgo Tree between 168 and 170 Water Street

Joyce Pandolfi <joycepandolfi@gmail.com>
To: michael schefers <meschefers@gmail.com>

Thu, May 15 at 1:57 PM

Hello Michael,

I am writing to formally request that the Ginkgo Tree on Water Street between 168 and 170 Water be removed for safety reasons.

As Ted and Diana Beck, as well as Francis and I, have long reported to the Borough Burgesses, the tree has falling, dead limbs that are a danger to those on the sidewalk. More importantly, the fruits that fall from the tree in the fall and winter are extremely slippery and could cause a fall to someone walking below.

Please seriously consider removing the tree.

Thank you,

Joyce Pandolfi

Re: Zoning Board of Appeals Application - Stonington Borough

Dear Warden Schefers and members of the Stonington Zoning Board of Appeals:

I am writing to express my keen interest in serving as a member of the Zoning Board of Appeals for the Village of Stonington. With an undergraduate degree in Civil Engineering, a lifelong interest in architecture, and active engagement in real estate investing, I am eager to contribute my expertise and passion to help shape the future development of this remarkable community.

My wife, Muriel, and I have enjoyed living in Stonington for the past several years and plan to retire here full-time in the future. During this time, we have developed a deep appreciation for the village's historical character, architectural integrity, and thoughtful stewardship of land use. I am enthusiastic about the opportunity to support the village in balancing the needs of growth and preservation, ensuring that Stonington remains a vibrant and livable community, and hopefully attracting more permanent residents!

In my capacity as a Management Consultant, I have advised CEOs and executive teams on strategic decision-making, governance, and complex problem-solving. My training as a licensed psychotherapist and expertise in organizational systems have sharpened my ability to navigate competing interests, listen carefully, and help stakeholders find practical and fair solutions directly relevant to the deliberative work of the Zoning Board of Appeals.

Thank you for considering my application. I would welcome the opportunity to discuss how my background and enthusiasm for Stonington's future can benefit the Appeals Board.

Sincerely,

Michael Fontana

Sanitation and Utilities Report – June 2025

Sanitation:

The new 48-gallon trash bins are expected to be received by CWPM in late June. They have contracted with a third party who will arrange for delivery to those homes who have requested them.

I did a trash citation round on Wednesday night and my observation is that more people are putting the bins out the night before and the vast majority, maybe 80% are using the CWPM bins. There were smaller bins being used south of Cannon Square but nearly everywhere else they were using the new bins and had them placed neatly near the curb.

I only issued 2 citations for people leaving their yellow bags out the night before collection. That is the lowest number I have ever issued. Prior to the new bins, I would estimate that I was averaging 5 citations to 8 citations per enforcement round.

Utilities

We talked last month about solar lights that require only about 3 hours of direct sunlight to fully charge the batteries. The main benefit is that we can turn these lights off at 10 pm or whenever we decide so that they do not adversely impact the neighbors who live nearby. Alternatively, we can place a streetlight on any Eversource pole, but they will stay on from dusk to dawn and will incur a modest ongoing monthly charge. The solar lights are a one-time, upfront investment.

Here is a link to a brochure for the lights: https://flt.com/products/scl2/

The best locations for a trial would be any of the following: Water St between Union and Harmony Water St between Broad and High Water St between High and Temple Main St between Union and Church

The quote for two lights, including poles and delivery is \$9,570. We would need to install them.

This company has sold similar lights to Groton who has installed about 30 of them in Poquonnock Plains Park.

Respectfully Submitted.
